

EORTC QLQ-C30

Anonymous Trust Heatmaps

Severe Problem Rates by Cancer Type

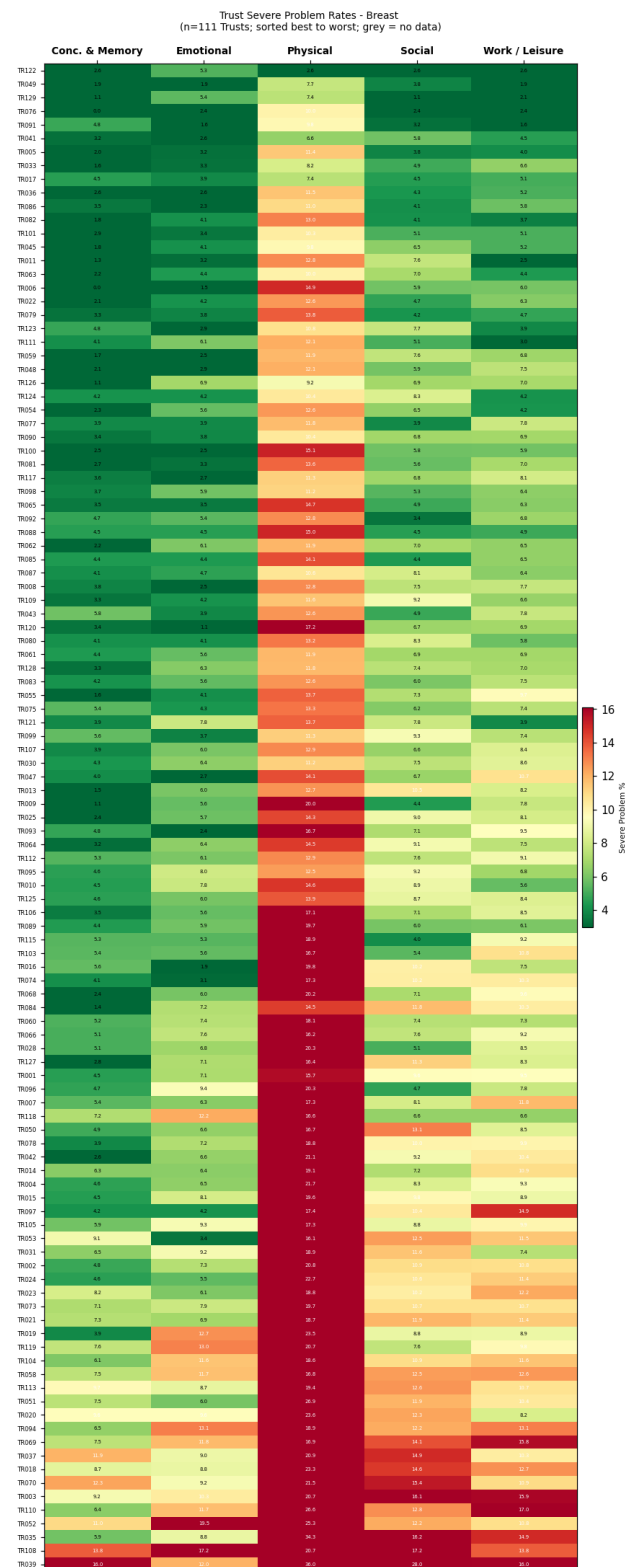

National Cancer Patient Experience Survey

Covering 129 NHS Trusts | 10 Cancer Types | 5 EORTC Domains

Each page shows a heatmap for one cancer type. Trusts are sorted best to worst by their average severe problem rate for that cancer. Trusts with fewer than 3 domains of data are excluded. The final page summarises all cancer types combined.

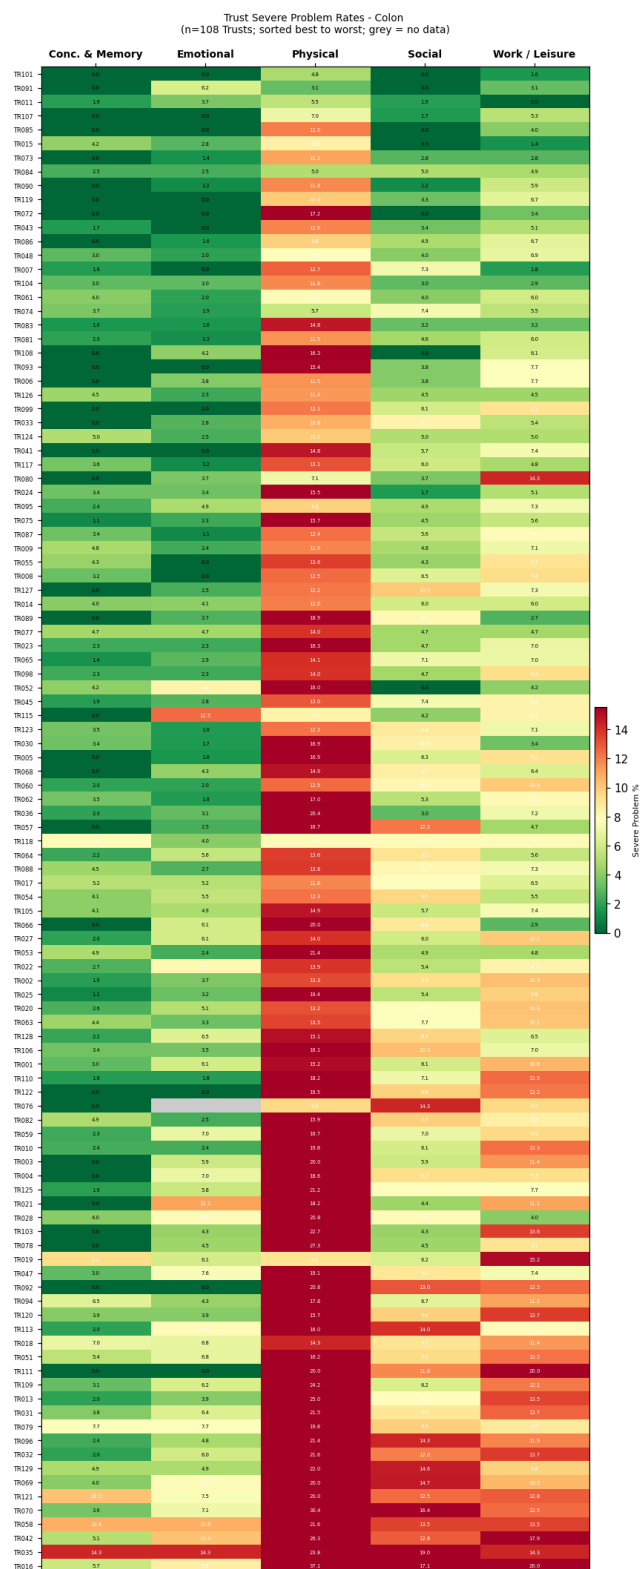

Trust names have been replaced with anonymous codes TR001-TR129. Each Trust can identify its own position using its unique code. If you would like to know your unique code, please email your request to Jo@SandBML.onmicrosoft.com

Breast

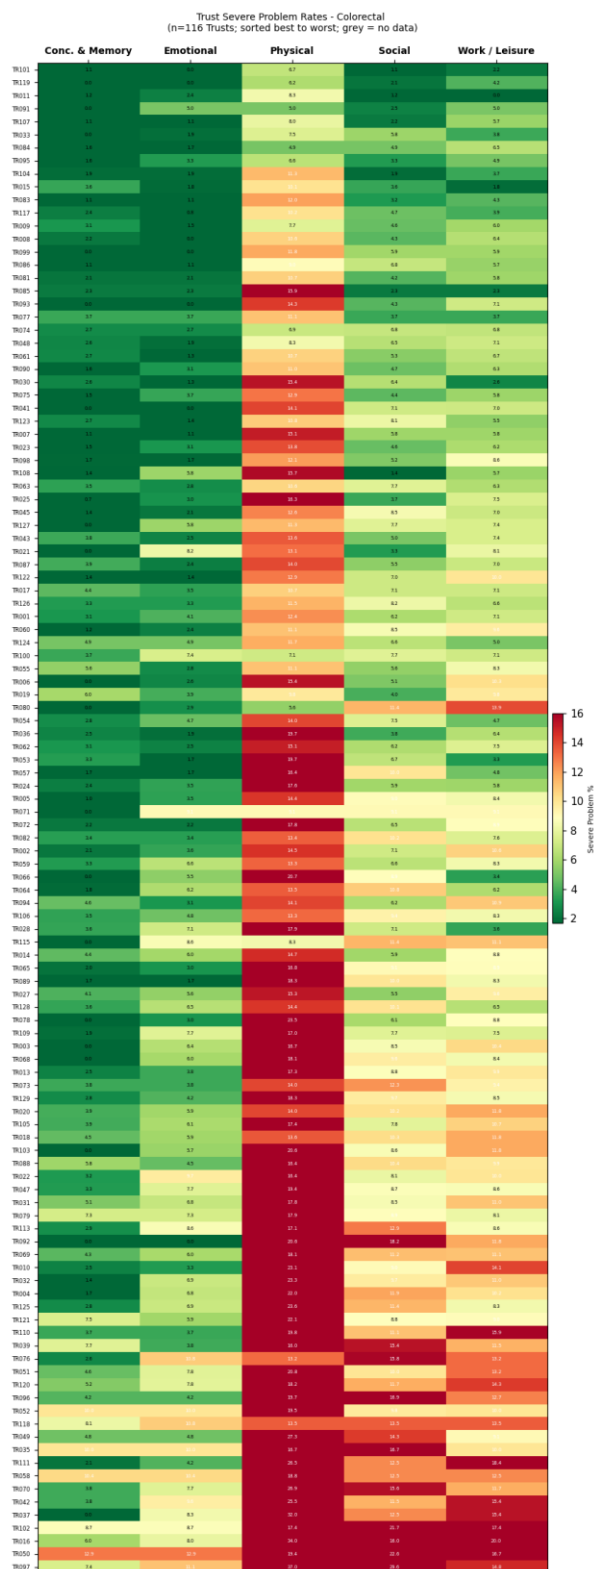

n=111 Trusts with >=3 domains of data shown. Severe problem rate (%) per Trust and EORTC domain. Trusts sorted best to worst for this cancer. Grey = no data. Colour scale: 10th-90th percentile.

Colon

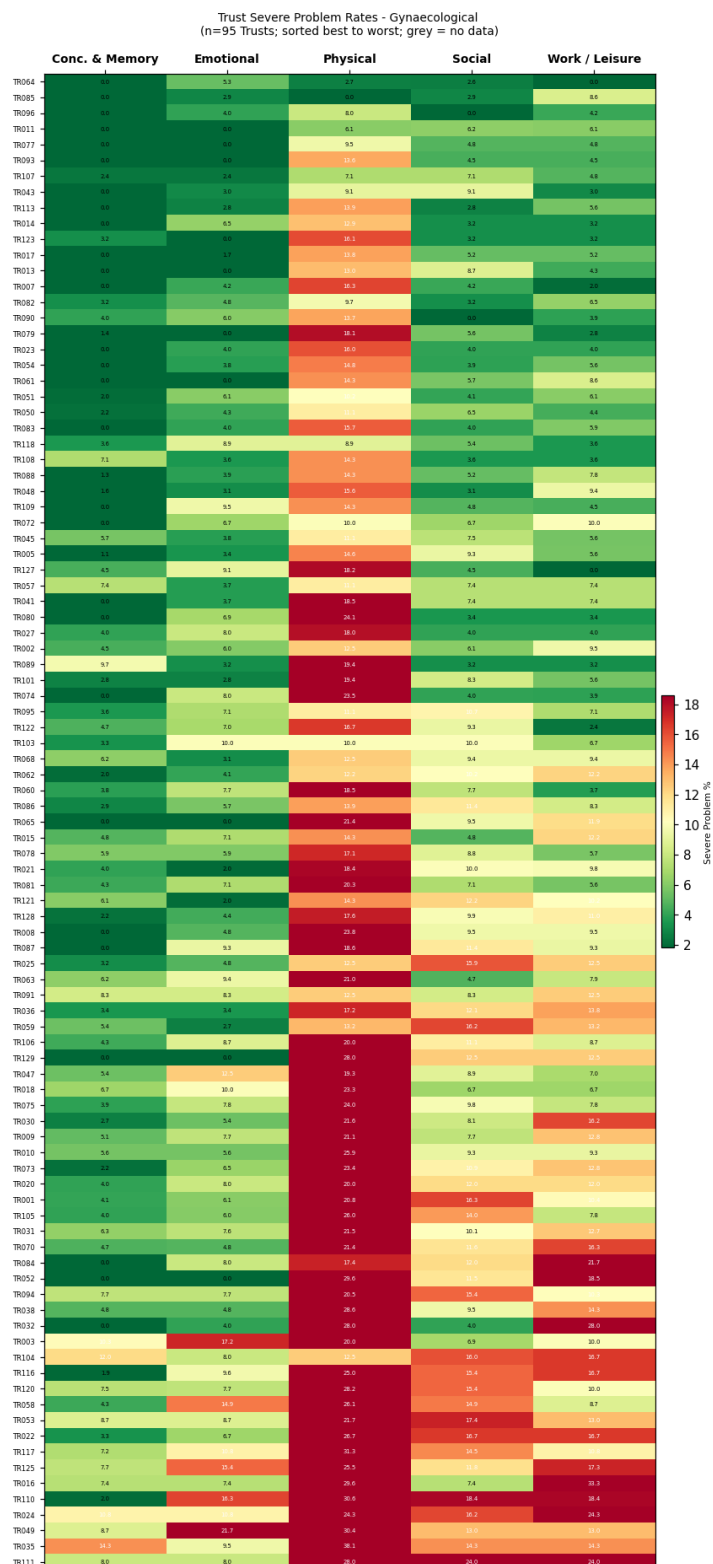

n=108 Trusts with >=3 domains of data shown. Severe problem rate (%) per Trust and EORTC domain. Trusts sorted best to worst for this cancer. Grey = no data. Colour scale: 10th-90th percentile.

Colorectal

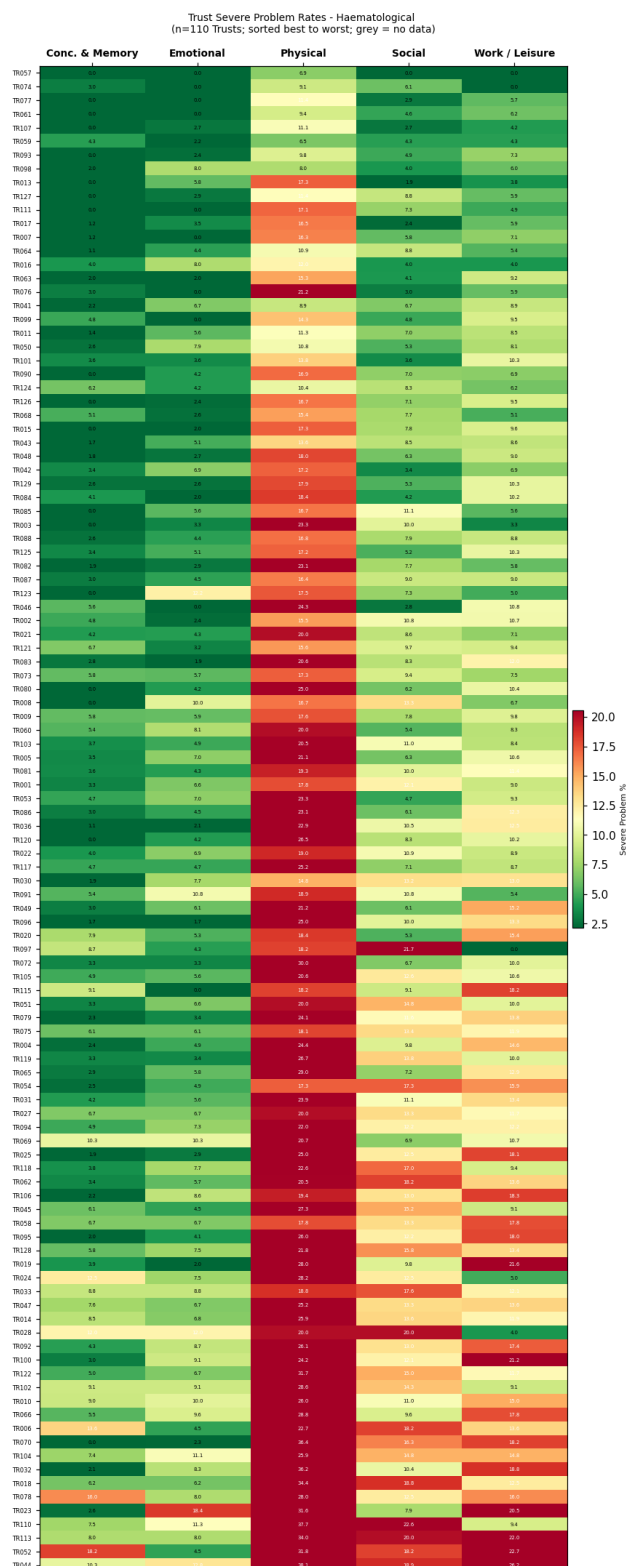

n=116 Trusts with >=3 domains of data shown. Severe problem rate (%) per Trust and EORTC domain. Trusts sorted best to worst for this cancer. Grey = no data. Colour scale: 10th-90th percentile.

Gynaecological

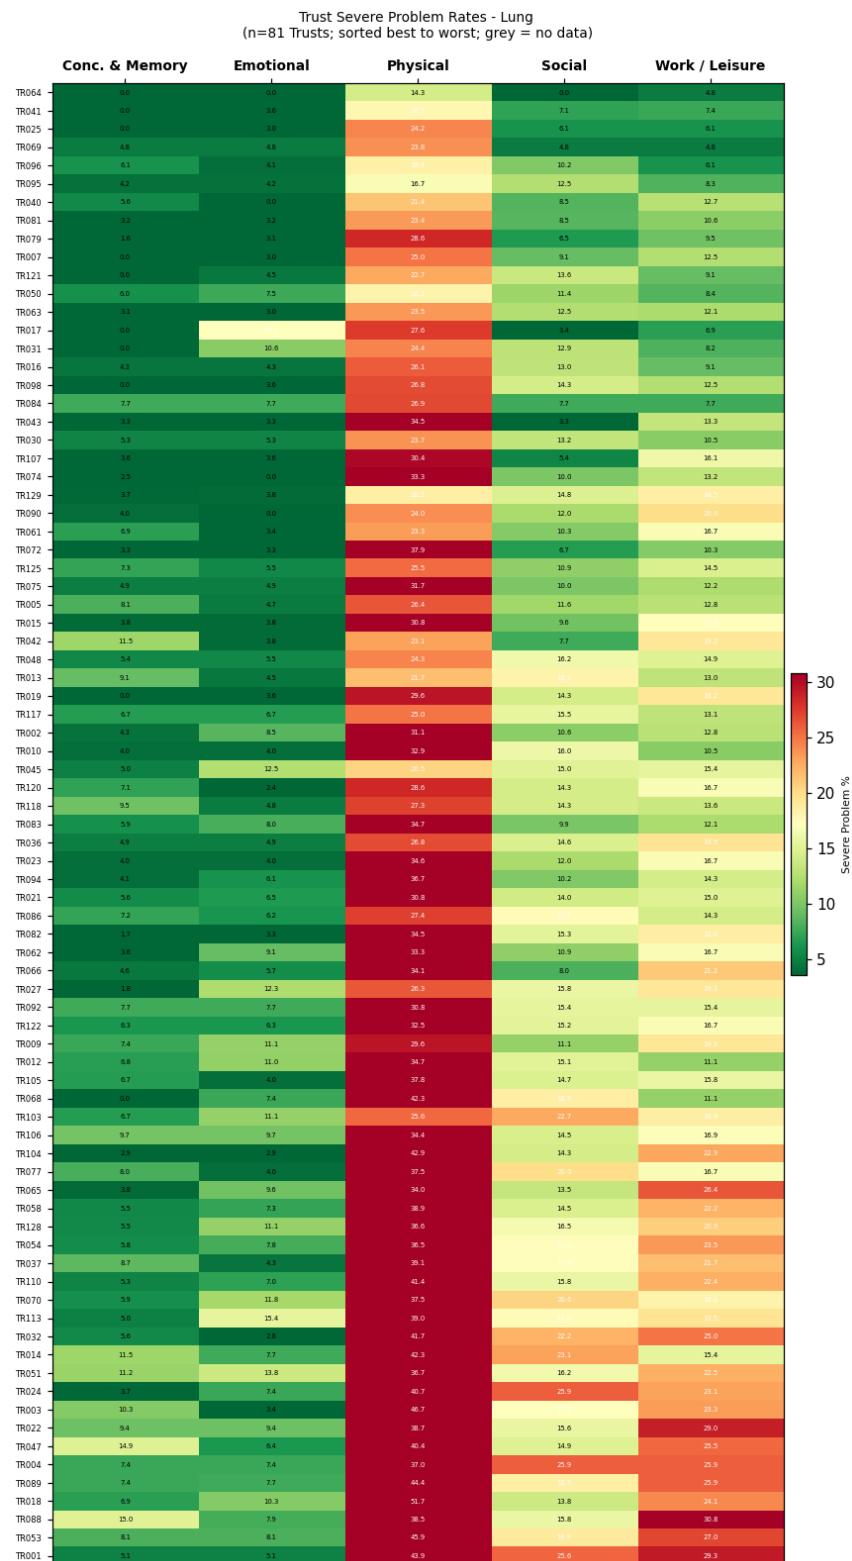

n=95 Trusts with >=3 domains of data shown. Severe problem rate (%) per Trust and EORTC domain. Trusts sorted best to worst for this cancer. Grey = no data. Colour scale: 10th-90th percentile.

Haematological

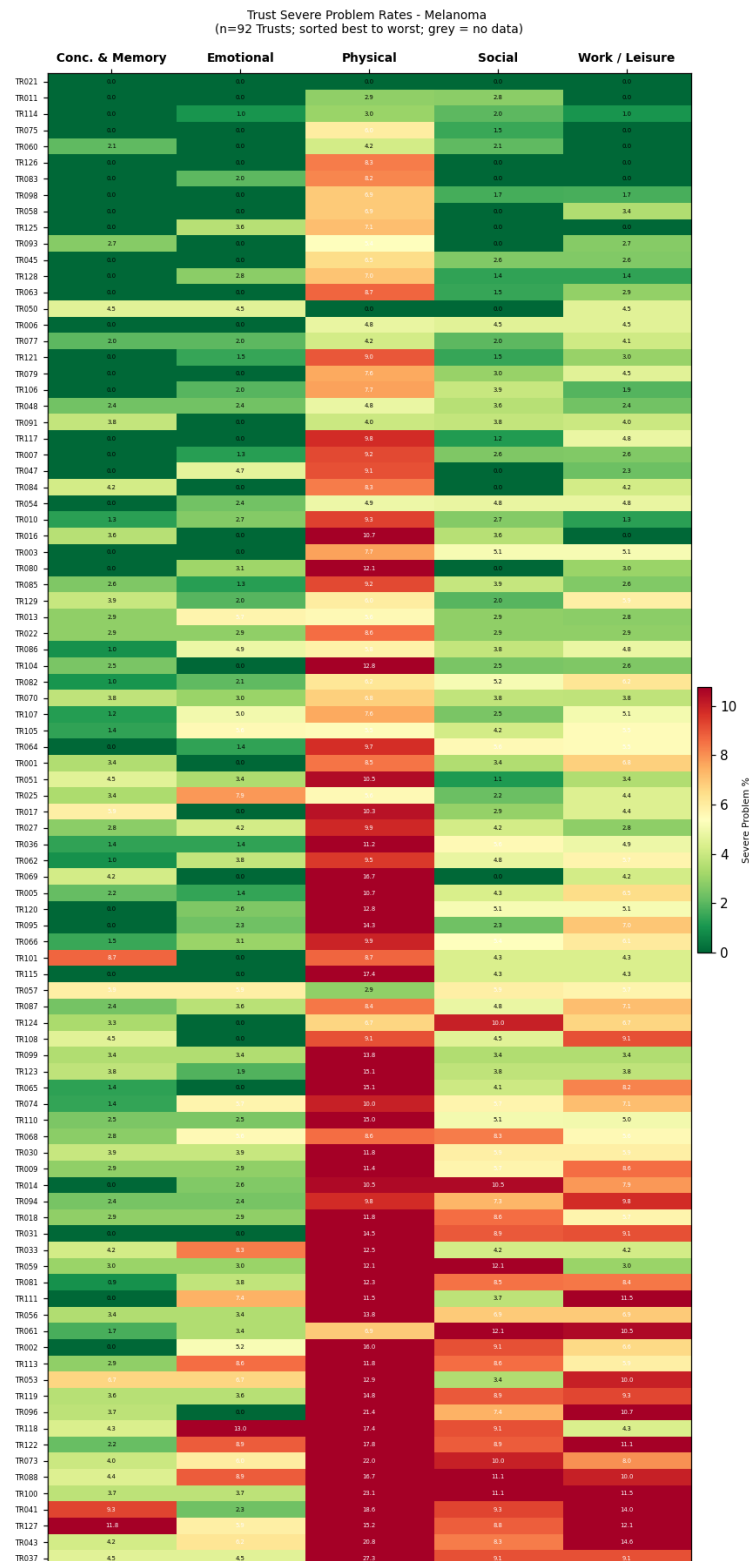

n=110 Trusts with >=3 domains of data shown. Severe problem rate (%) per Trust and EORTC domain. Trusts sorted best to worst for this cancer. Grey = no data. Colour scale: 10th-90th percentile.

Lung

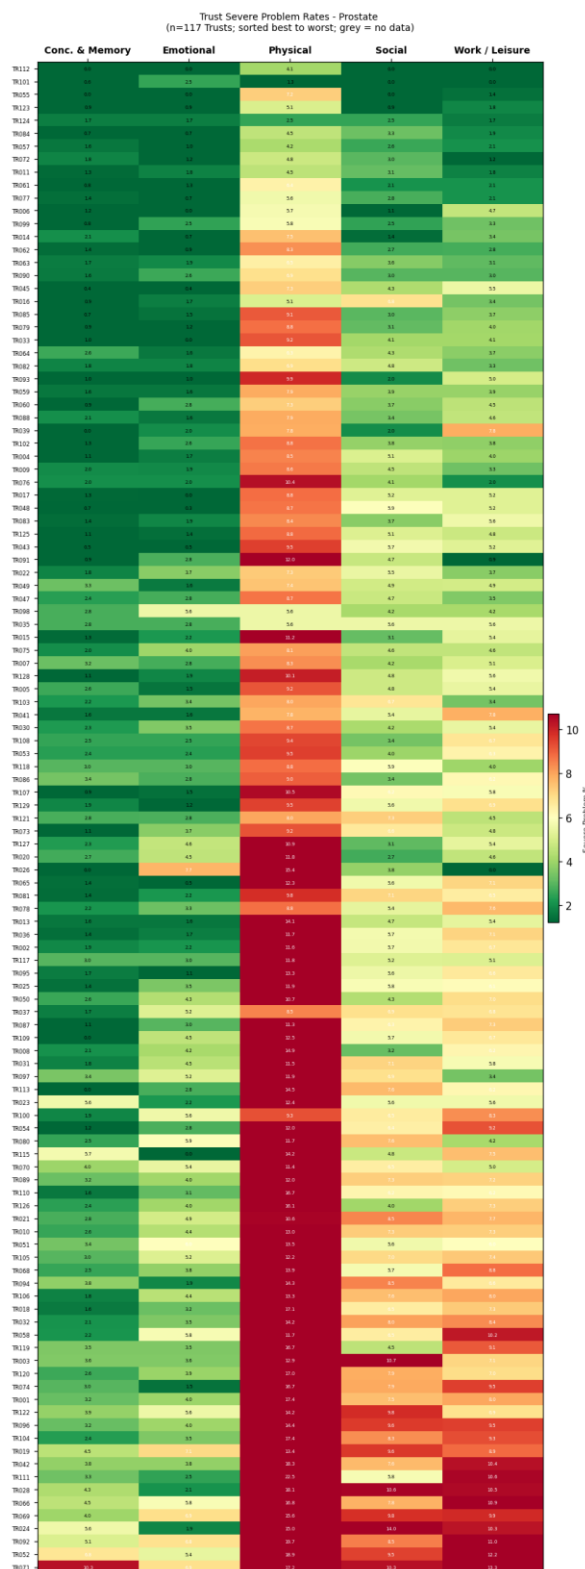

n=81 Trusts with >=3 domains of data shown. Severe problem rate (%) per Trust and EORTC domain. Trusts sorted best to worst for this cancer. Grey = no data. Colour scale: 10th-90th percentile.

Melanoma

n=92 Trusts with >=3 domains of data shown. Severe problem rate (%) per Trust and EORTC domain. Trusts sorted best to worst for this cancer. Grey = no data. Colour scale: 10th-90th percentile.

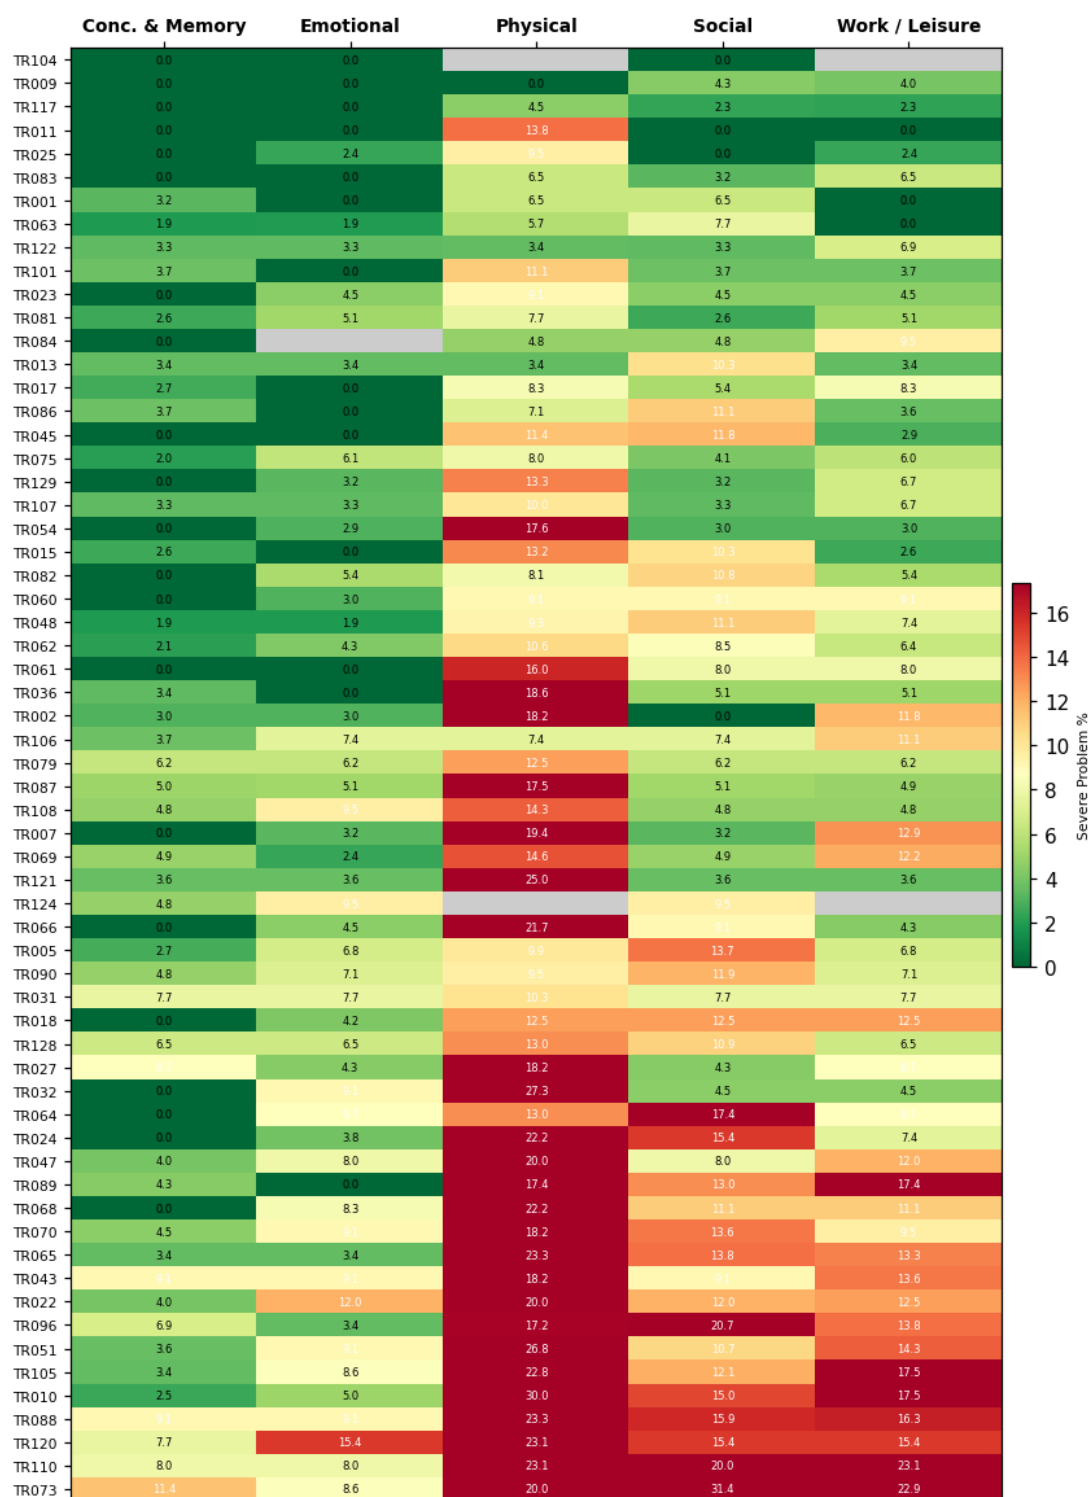

Prostate

n=117 Trusts with >=3 domains of data shown. Severe problem rate (%) per Trust and EORTC domain. Trusts sorted best to worst for this cancer. Grey = no data. Colour scale: 10th-90th percentile.

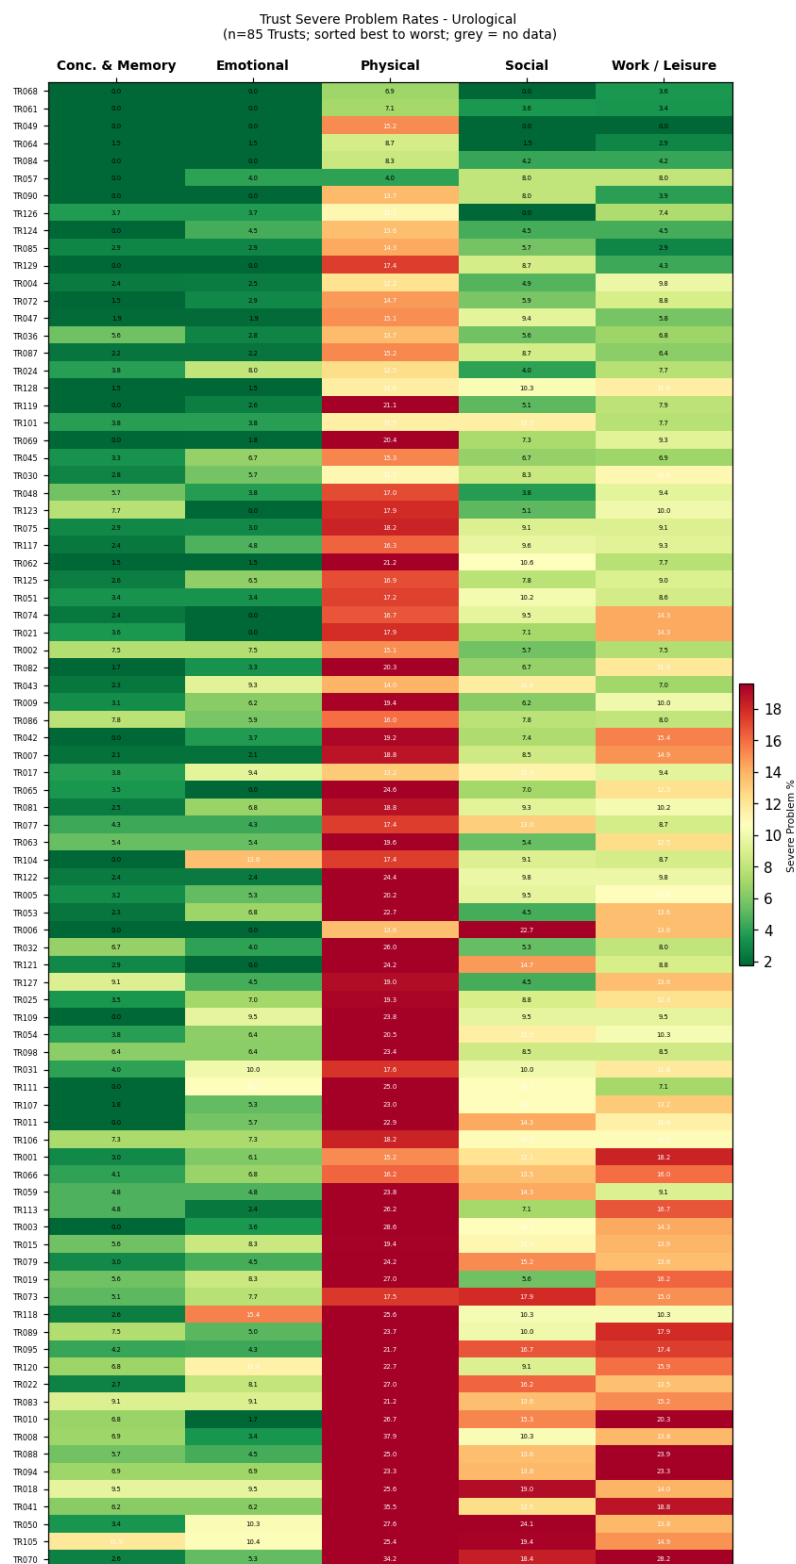

Rectal

Trust Severe Problem Rates - Rectal
(n=62 Trusts; sorted best to worst; grey = no data)

n=62 Trusts with >=3 domains of data shown. Severe problem rate (%) per Trust and EORTC domain. Trusts sorted best to worst for this cancer. Grey = no data. Colour scale: 10th-90th percentile.

Urological

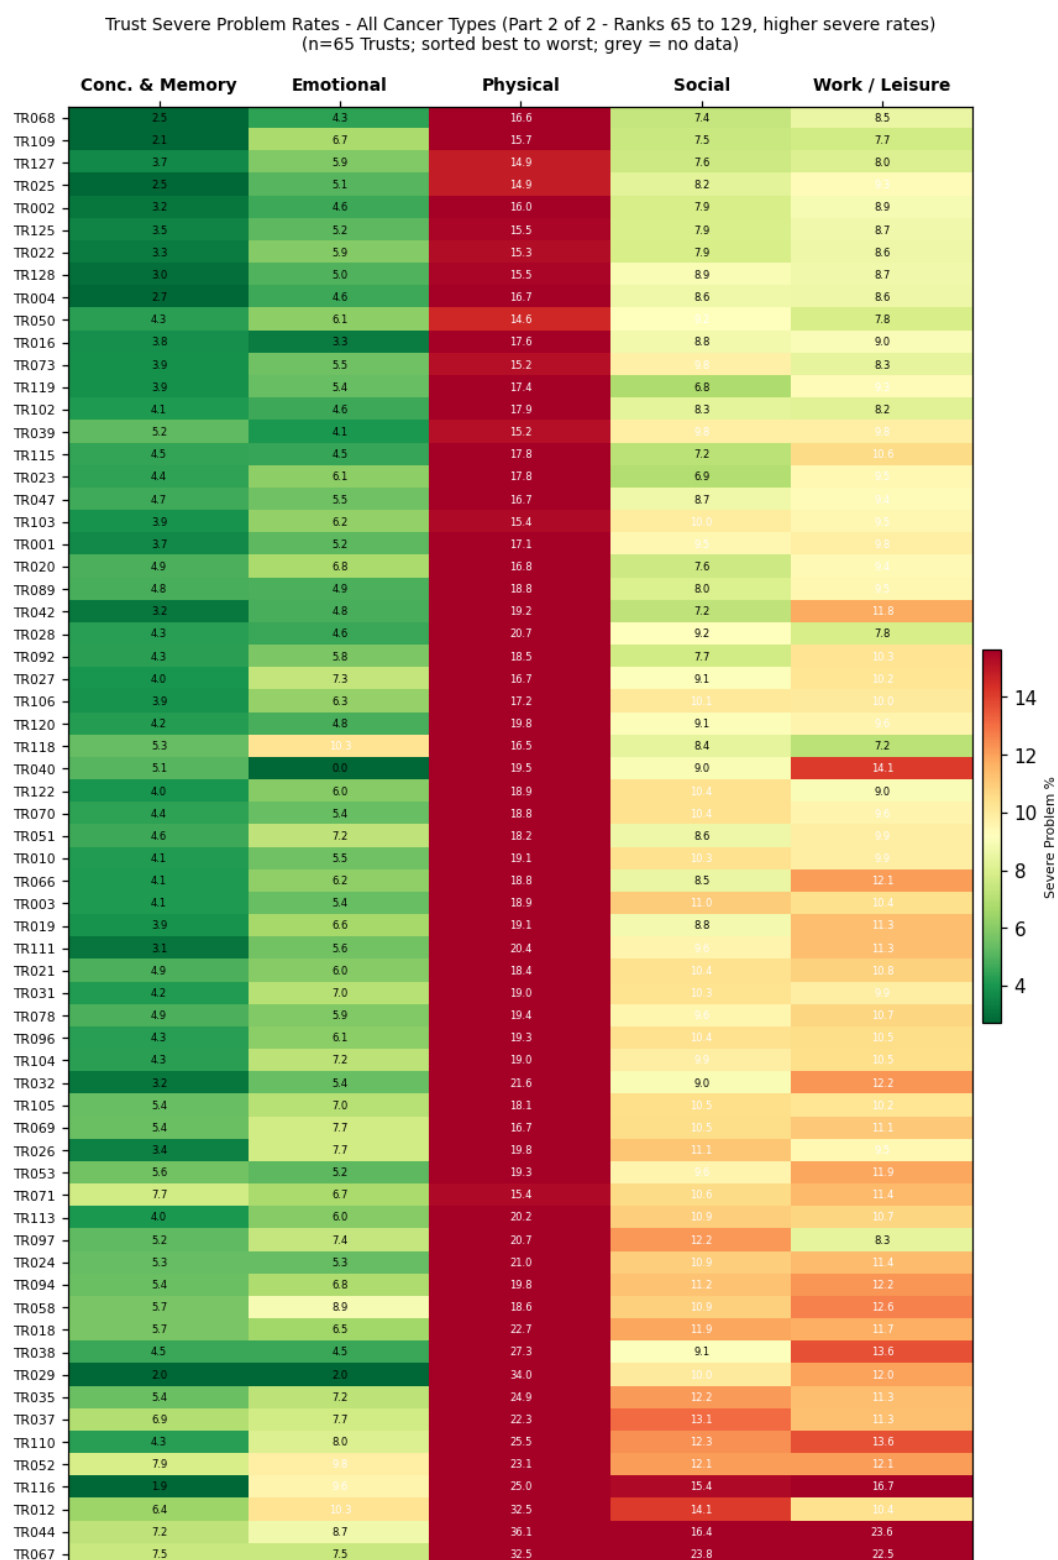

n=85 Trusts with >=3 domains of data shown. Severe problem rate (%) per Trust and EORTC domain. Trusts sorted best to worst for this cancer. Grey = no data. Colour scale: 10th-90th percentile.

All cancer types (Part 1 of 2 - Ranks 1 to 64, best performing)

n=64 Trusts shown. Severe problem rate (%) per Trust and EORTC domain. Trusts sorted best to worst overall. Grey = no data.
Shared colour scale across both parts.

All cancer types (Part 2 of 2 - Ranks 65 to 129, higher severe rates)

n=65 Trusts shown. Severe problem rate (%) per Trust and EORTC domain. Trusts sorted best to worst overall. Grey = no data.
Shared colour scale across both parts.
